The President wrote that he would withdraw the men whenever their pay is sent to the Municipality every month

I beg to mention that the roads and latrines are being used by General Public and the Officials belonging to various offices located in the buildings — For your information I have enumerated the several offices that are located here

If the work is not done, as heretofore by the Municipal Office its charges will have in fairness to be borne by all the several Wards and not by the District alone I do do the charges proportionately and recover accordingly would not be very convenient I would therefore propose that the present arrangement may be kindly ordered to be continued and the President requested not to withdraw her men from the work
